

Long-Range Planning Committee

October 2, 2023

4:30 p.m.–7:00 p.m.

ESC Board Room

“Move to direct the superintendent to immediately create a committee of senior administrators (e.g., Terry Davis, Melissa Cooper, Mike Porter, Clay Abla, Linda Jones, Marcy Phelps) and Western Demographics, and include 7-8 members of the previous LRPC and/or other community members, to begin a review/study of the LPS projected enrollment numbers and the preliminary demographic study provided by Western Demographics for Newton Middle School, Powell Middle School, and Euclid Middle School catchments and all elementary school catchments east of Broadway (Field, Gaskill, Hopkins, Sandburg, Lenski, Ford). The charge for this blended group is to bring 2-3 recommendations to the Board of Education in October that will better balance (right-size) enrollment at NMS, PMS, and EMS and all elementary schools east of Broadway, using the Board's standards and values when possible in determining school catchments (boundaries) and bus routing. Prior to the Board receiving the recommendations, actual 23/24 enrollment numbers will be reviewed, and a community engagement and input process will occur and be documented. Note: Recommendations could be made for the 24/25 school year or the 25/26 school year.”

Agenda:

- | | |
|-----------|--|
| 4:30–4:35 | Welcome and review agenda |
| 4:35–5:15 | Debrief the community town hall input sessions and feedback |
| 5:15–5:30 | Synopsis of scenarios |
